PRICING SCHEDULE GUIDELINES

INNOVATIVE SYSTEMS offers four pricing levels that are based on volume purchased:

LIST When the subtotal of all product being purchased on one order (not including Sales Tax and Freight) is less than \$ 499.00, the List Price applies to each item.

CODE I When the subtotal of all product being purchased on one order (not including Sales Tax and Freight) equals \$ 500.00 or more at List Price, each item then qualifies for Code I pricing.

CODE II When the subtotal of all product being purchased on one order (not including Sales Tax and Freight)

INNOVATIVE SYSTEMS MASTER PRICE SCHEDULE

PART NO.	DESCRIPTION	\$499.00 & UNDER LIST	\$500.00 to \$1,499.00 CODE I	\$1,500.00 to \$2,999.00 CODE II	\$3,000.00 & OVER CODE III
----------	-------------	------------------------------------	--	---	---

equals \$ 1,500.00 or more at Price Code I, each item then qualifies for Code II pricing.

CODE III When the subtotal of all product being purchased on one order (not including Sales Tax and Freight) equals \$ 3,000.00 or more at Price Code II, each item then qualifies for Code III pricing.

Establishing a Price Code:

The above Price Codes are determined by the U.S. dollar amount of a SINGLE ORDER. Cumulative sales do not establish the Price Code.

After a Price Code is established:

Once you have qualified for a Price Code, future orders will be priced at that Price Code. It is not necessary to re-qualify for that particular established Price Code. You may find yourself qualifying for a lower pricing code. For example: If your initial order qualifies you for Price Code I, then you submit another order with a subtotal of \$150.00, your pricing will be at Code I (not List).

How to establish a lower Price Code:

The price you pay will never be higher than the previously established Price Code. To qualify for a lower pricing Code, simply purchase the amount necessary as described above on a SINGLE ORDER. For example: If you are presently at Price Code I, then submit an order for \$1,700.00 which qualifies you for Code II, all future orders will be priced at your new established Code.
